

Illinois Homeland Security Network

Intelligence Sharing & Analysis:

Public-Private Homeland Security Solutions

Intelligence sharing and analysis are key tools to respond to homeland security challenges, whether manmade or natural disasters.

Industry and government collaborate in gathering, analyzing, and sharing data to reduce risks globally. At this event, homeland security professionals—from diverse sectors, government, associations, and educational communities—will share practical and actionable insight, allowing for improved public-private capabilities in the intelligence informatics realm.

This seminar will appeal to: Law Enforcement & Intelligence Professionals, Technology Firms, Homeland Security Firms, Business/Legal Advisors, Financiers, Educators, Government & Media
